

Rosengrens Atlantic SDL

Light weight safes for safe deposit lockers

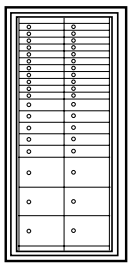

Rosengrens Atlantic SDL is a range of light weight safes for safe deposit lockers 1720 that is tested and certified to the European norm in Grades III and IV. The Atlantic SDL contains 12-124 boxes depending on the model and box sizes. Due to its low weight and dimensions the Atlantic safes are easy installed. The Grades III and IV test approval provides an excellent burglary protection of the safe deposit lockers. The Atlantic SDL is available in 3 models with 2, 3 or 4 columns and in different colours. Each column has a master lock and the boxes are delivered with Rosengrens exchangeable customer lock.

Burglary protection: The Atlantic safes are tested according to the demanding European norm EN 1143-1 in security Grades III and IV and certified by ECB+S, which provides an excellent burglary protection of the safe deposit lockers.

Safe deposit lockers 1720: The 1720 is specially adapted for the Rosengrens safe deposit locker safes. The Atlantic SDL is available in 3 models with 2, 3 or 4 columns. The Atlantic SDL can contain 12-124 boxes depending on model and box sizes. The standard box heights are 50, 75, 100, 125, 175 and 300 mm. Option heights 475 and 600 mm. The safe deposit columns are equipped with a master lock and the boxes with Rosengrens sealed exchangeable client lock 32A81S to be installed when the customer rents a box. The safe deposit lockers are prepared for Rosengrens control system RBM. The safe deposit lockers are available in many colours and column arrangements.

Weight: By the unique security material used, the wall thickness of the safes are reduced and thereby also the weight to half of regular safes constructed with traditional technology. The low weight minimizes transport cost and simplifies the installation, even where floor loading could be a problem.

Locks: The Atlantic safes are delivered with Rosengrens resettable key lock RKL-10 as standard. As an option Rosengrens new electronic lock REL can be delivered as well as mechanical combination lock. In Grade IV dual locking is standard.

Design: The Atlantic safes have a functional ergonomic and modern design in off-white and blends in well in both modern and classic surroundings.

Quality and environmental management systems: The Atlantic safes are manufactured in accordance with the ISO 9001 quality management system and the ISO 14001 environmental management system.

Rosengrens Product Guidelines: The construction of the Atlantic has been tested and approved to the Rosengrens Product Guidelines which are based on all relevant European norms. The aim is to verify the user friendliness, safety and product lifetime, thereby assuring customers that our products live up to the highest expectations.

Standard column arrangements

Arr	50	75	100	125	175	300	Total	Weight kgs	Arr	50	75	100	125	175	300	Total	Weight kgs
