

Datamedia cabinet Caribbean

Caribbean - easily installed, compact, lightweight datamedia cabinet

Sunlight alone, not to mention fire.... Your datamedia with hours and hours of work is destroyed. Rosengrens Caribbean can help you secure your data. Our newly introduced tested cabinet can be conveniently placed under or near to a desk. This provides convenient access with maximum protection.

Light Weight and Very Compact

Rosengrens Caribbean employs the lightest material on the market. This ensures easy installation, low cost and low floor loading.

The unit fits under your desk and with its compact design maximises the inner useable volume.

Castors may be fitted as an option if you would like to move the cabinet easily.

The door opens a full 90 degrees making all items stored accessible.

Design

The Caribbean's smooth rounded design is elegant and ergonomic with its user friendly handles. The colour is off-white RAL 9002 with a dark grey handle and stripe.

Two fascia "kits" are available as optional extras, to blend into your own office design. The first kit provides an ice blue plexiglass finish, the second a wood finish.

Flexible Fittings

A variety of fittings are available to suit the various types of media to be stored ranging from diskettes, CD - ROMs to ZIP's. The flexible shelf dividers are adjustable to take maximum advantage of the space available.

All fittings are rounded to avoid sharp corners.

Lock Options

The Caribbean is supplied with an electronic lock as standard, a key lock is optional. Whichever the choice the locks provided are of high security.

The door is of a slam action type and when closed provides full fire protection even though not locked.

Tested Cabinets

Our lightweight cabinet is tested and certified to VDMA 24991 S60DIS and EN 1047-1 the new european norm. This guarantees that the computer media stored in the cabinet will withstand fire for 60 minutes.

Options

Rosengrens Caribbean can be prepared for floor anchoring. An alarm-kit is also available as an option. The alarm-kit indicates whether the door is open or closed, if there is a fire or if the cabinet is being attacked.

Modern Production

The Caribbean cabinet is manufactured in one of our high quality state of the art factories.

The factories are certified to ISO 9001 which guarantees the very best quality. This also requires regular inspections from outside certifying bodies, further ensuring you get the very best.

The environment

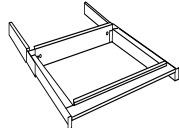

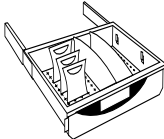

The entire production, from the choice of material through the manufacturing process is characterised by our environmental awareness.

Rosengrens is Europe's leading manufacturer of security solutions. It is our responsibility to inform you how to protect your valuable assets against fire, break-ins and theft. It is our job to provide the tailor-made solutions. We have been doing this for over 150 years, so we know our business.

Consult us when it comes to Security, because Rosengrens is more than safe.
