

Rosengrens MultiSec

Fire and burglary protection of documents and valuables

Rosengrens MultiSec is a complete range of cabinets that protect against both fire and burglary. The cabinets are available in 6 sizes with the capacity of 4 up to 35 binders with a variety of flexible interior fittings. MultiSec can also offer you a combined storage. By adding a special insert in the cabinet you are able to store and protect data media such as CD's, DAT cassettes and DLT tapes against fire. The whole MultiSec range is tested and certified to withstand a fire for 2 hours and for burglary in Grade 0–I. Various lock options are available, key locks, combination locks, electronic locks or a combination of locks.

Fire protection: Rosengrens MultiSec cabinets have been tested and certified by SP (Swedish National Testing and Research Institute) according to the Scandinavian norm NT Fire 017 to class I20 Paper. This means that the cabinets will withstand a fire for 120 minutes.

Burglary protection: The MultiSec cabinets have also a burglary protection and are tested according to the European norm EN 1143-1 in security Grades 0 and I and certified by ECB•S.

Locks: As standard the MultiSec range is fitted with Rosengrens high security key lock RKL-10. Other lock options are available; combination locks, electronic locks or a combination of locks. All our models are prepared for dual locking, and come with high-quality tested locks.

Design: The design is functional and elegant and the cabinets blend in well in most environments with its light colour scheme. The door has a slam action feature, which means that you have just to slam the door to obtain full fire protection.

Quality and environmental management systems: The Rosengrens MultiSec cabinets are all manufactured in accordance with the ISO 9001 quality management system and the ISO 14001 environmental management system.

Quality control: Rosengrens MultiSec range has been developed and continuously tested according to the Rosengrens Quality Guidelines which include several criteria relating to existing European norms with the aim of guaranteeing quality and assuring customers that the products live up to the highest expectations.
